

Artigiano Series

Handcrafted True Brick Ovens

The Forno Bravo Artigiano Series is a family of true brick ovens handcrafted at a small artisan’s workshop in Tuscany. Based on the traditional round freestanding brick dome originally created in ancient Rome, and perfected in modern Naples, the Artigiano ovens offer the outstanding cooking characteristics that only a true brick oven can provide. Built by hand—one at a time—by talented artisans, these ovens are very special.

The Artigiano ovens are available in three sizes: a 31.4” round cooking surface, a 39.3” round cooking surface, and a 39.3” x 47.1” oval.

The dome of the Artigiano oven is perfectly shaped for cooking pizza, bread and roasts, and quickly reaches the 750F necessary to cook the perfect 2-3 minute pizza. The dome is shipped and installed as a single unit. There are only a small number of artisans with the skill to build a freestanding brick dome, and these ovens are highly prized in Italy, where they are considered the best available.

Constructed using the highest quality refractory bricks, our Artigiano ovens are structurally identical to the commercial brick ovens found in pizzerias throughout Italy. The only difference between the commercial ovens and the Artigiano ovens is the size of the oven chamber and the thickness (thermal mass) of the oven dome.

The 2” thick cooking surface provided with the Artigiano ovens is constructed using the highest quality, high-fired, commercial quality refractory materials. It heats up quickly, and provides the same heat retention characteristics as commercial ovens – allowing you to cook pizza all day long, or bake scores of loaves of bread and roast Thanksgiving turkey.

The Artigiano ovens are delivered with a steel vent, which can be attached to a standard UL103HT steel chimney system. The Artigiano ovens can be finished in virtually any exterior style, including an Igloo or walled enclosure, and can be easily installed on a concrete block stand and insulated hearth.

Each oven includes the oven dome and floor, steel vent and door, 3 x 1” ceramic dome insulation, 2” ceramic floor insulation, CD ROM and installation guide.

Each Oven includes

- One-piece dome and multi-piece cooking floor
- Steel vent and steel door
- 3 x 1” dome insulation and 2” floor insulation
- Forno Bravo CD ROM

Beautiful craftsmanship characterizes the Artigiano ovens.

The dome is built and delivered as a single piece..

The Artigiano Family

	Cooking Surface (in)	Area (m2)	Heat up (min)	Pizzas (10")	Bread (lbs)
Artigiano80	31.4”	0.50	40	2	12
Artigiano100	39.3”	0.80	50	4	22
Artigiano120	39.3”x47.1”	1.0	60	6	28
